

Sunday
Aug. 29th

Dear Vickie & Jim,

Have just reread your last letter and had better get a note written so you will be sure to receive it before you head home - it will be quite a transition back to "keeping house" won't it honey! you didn't live in the new place too long before you went to London did you? So it will still be new -

We've had a rather easy day - this morning it began to rain just as they started picking peaches so didn't have many to handle.

Ken & Debbie came by white ago to get some for her to can & we had a good visit - Also had a nice time while Edna was here. Spent Sat. at the beach, "just we ladies") a family gets together on Sunday - lunch with Beryl on Monday and lunch in Lyndal Twp. as we took Edna back to meet mailjet for her flight home Wed -

We're all looking forward to your visit - would like to see Jim too

but understand his opting
to stay in Wash. and see
his folks when they come
in Oct. - I hope it works
out for Mary when she again
lives in Wash. - And you
two will have to get used
to life in the nation's
capital again - Europe must
seem far away from it all.
How close to the situation
in Lebanon have you felt
there? I hope the pho
withdrawal will be enough
in cooling the Middle East
but have fears that it won't.
Let us know your plans
as they develop and we'll
see you soon!
